UpToDate provides information on

TAP INTO THE WORLD’S LARGEST CLINICAL COMMUNITY

For more than 20 years, UpToDate has been providing our community of over 850,000 clinicians with unbiased, continuously updated, evidence-based, practical recommendations to make the right point of care decisions.

UpToDate is one of the world’s most trusted clinical information resources. In fact, independent research shows that clinicians turn to UpToDate more than almost any other resource to find answers to their clinical questions.2

Find out for yourself why your colleagues prefer UpToDate to other information resources.

Research the Topic.
Over 10,000 evidence-based medical topics provide the information you need for optimal patient care.

1. **Enter a word or phrase in the New Search box.**
The more specific your search, the more likely it will return the desired results.

2. **Review Search Results.**
Enhanced search results display the topics, sections and graphics that are most likely to answer your clinical question.

3. **Research the Topic.**
Over 10,000 evidence-based medical topics provide the information you need for optimal patient care.

- **View** a detailed outline within each topic.
- **Click** to go directly to summary and treatment recommendations.
- **Click on a heading** to go directly to the information you need.
- **View** all Graphics associated with a topic in a thumbnail format.
- **Link** to information about authors and editors.
- **View** the date that the topic was last modified, based on continuous review of the latest research.
- **Accrue** free CME/CE/CPD credits.
- **Email** topics to your colleagues or patients.
- **Print** text, references, graphics or the entire topic.
- **Access** patient education to share with your patients.
- **Access** related topics to find additional information.
- **Click** to view a Medline abstract with full text when available.
- **Provide** valuable feedback by submitting questions and comments to our editors.

Hover over a topic to see the full topic outline. Click on a link to go to a specific section.

Prioritize the order in which topics appear on the search results page or filter your search over Graphics only.

Enter a word or phrase in the New Search box.

The more specific your search, the more likely it will return the desired results.

Modify your user name and password or update your account information.

View Practice Changing Updates (PCUs).

Learn “What’s New” by specialty.

Review list of topics within each specialty.

Access patient education to share with your patients.

Access drug interactions program, in partnership with Lexicomp®.

Calculate many different medical measures.

Personalize your view by collapsing or expanding results or hiding the topic outline.
